

## Apocalyptic Anointing and Spiritual Warfare

The purpose of this book is threefold. First, to encourage and affirm those who have unique gifts and are able to see in the realm of the Spirit. Secondly, to be concrete with our experiences, to make sure that our experiences are backed up with the Word of God. Third, to explore an understanding that even though God moves in the spiritual world, God also desires us to be academic. We must allow God to refine our intellect and renew our mind. Often, churches have not allowed individuals to use their spiritual gifts and rejected these individuals. This book is for those who might be interested in finding out more about the anointing of the Spirit, the gifts, and the spiritual fight that goes on day and night in the earth, under the earth, and in the heavenlies. This book intends to bring clarity to your spirit and your mind regarding spiritual warfare. The apocalyptic anointing gives discernment regarding what the enemy is doing against churches, regions, and nations in the spiritual realm, and then gives strategies to overcome his plan by allowing the kingdom of God and his angels to destroy his schemes.
